- iii. Commercial Debtor: where the commercial debt is written off, MRU may be able to claim value-added tax (VAT) bad debt relief. A copy of the document and a print-out will be made available for the VAT return if required.
- iv. Debt Management:
- v. Debtor: a person or organization that owes money to MRU.
- vi. Student Debt: where a student debt has been written off the individual record in the student database will have the appropriate debtor flag attached.

1.1 Background of MRU

Muteesa I Royal University (MRU) was offered an operational license by the National Council for Higher Education (NCHE) in 2005 and started its operations in 2007. The initiative was promoted by the Executive Committee (EC) of the Buganda Kingdom, headed by the *Katikkiro* (i.e., Prime Minister).

1.2 Strategic Goals of MRU

The Strategic Goals of MRU are as follows:

- a. To produce graduates with all-round competencies and skills to be able to initiate self-employment activities or compete for jobs in the global market;
- b. To promote research and encourage students and staff to publish;
- c. To build and expand collaboration and engagement with the community, the alumni, and industry and business, and to equip students with practical skills while empowering the community, industry & business to develop local solutions;
- d. To strengthen MRU's human resource capacity;
- e. To achieve a sustainable financial resource base;
- f. To improve the administrative and organizational arrangements of MRU with a view to achieving efficiency and effectiveness in all sections of MRU; and
- g. To construct or acquire, rehabilitate and maintain buildings, equipment, implements, ICT facilities and land particularly for the growth and development of its niche.

1.3 Vision of MRU

The Vision of MRU is to be “a leading university responding to contemporary challenges through teaching and learning, research and technical guidance”.

1.4 Mission of MRU

The Mission of MRU is “to provide training, research and technical guidance responsive to national socio-economic needs”.

1.5 Core Values of MRU

The core values of MRU are as follows:

- i. Professionalism; Professionalism is a trait that's highly valued in the human resource of any organization. It has many attributes, including: (a) Specialized knowledge, (b) Competency, (c) Honesty and integrity, (d) Respect, (e) Accountability, (f) Self-regulation, and (g) Image.
- ii. Respect for Diversity;
- iii. Cultural Sensitivity;
- iv. Tenacity; and
- v. Team Spirit.

2.0 Introduction of the Policy

- Debt management policies are written guidelines, allowances, and restrictions that guide the debt issuance practices of organizations, including the issuance process, management of a debt portfolio, and adherence to various laws and regulations. Hence:
 - a. As part of the management of its financial resources, MRU needs to try and ensure that the most effective cash collection procedures are in place and that income generated is reported at the correct levels.
 - b. Income to MRU, reported through the income and expenditure account, is calculated to reflect the income generating activity for that particular period regardless of whether or not the cash has been received by MRU.
 - c. Customers of organizations do not always pay for the services they have used (e.g., tuition fees, or commercial income). If despite best efforts to collect the outstanding income it is deemed to be irrecoverable it is referred to be a bad debt and would normally be written-off to the income and expenditure (I& E) account as a reduction in income.
 - d. Treating income as a bad debt should be the final stage of the University debt collecting process. To support this, a detailed “Student Payment and Debt Procedures” guideline for the collection of income should be in place and should be continuously updated or reviewed.
 - e. To mitigate against the impact of writing-off bad debts, MRU shall make an annual provision in the accounts (referred to as the “bad debts provision”).

MAGP

3.0 Objectives of the Policy

The purpose of this Policy is to outline the calculation of the bad debt provision and the writing-off of any bad debts of MRU. The two main objectives of the Policy are as follows:

- a. To minimize borrowing costs subject to keeping MRU's risks at an acceptable level; and
- b. To support the development and functioning of MRU's financial markets.

4.0 Application of the Policy

This Policy applies to all staff involved in the raising of income and debt collection activities.

The scope of this policy covers MRU's income across all accounting headings including: tuition fees, commercial/enterprise income, accommodation and other miscellaneous income.

5.0 Responsibilities for the Policy

- a. Leadership of this policy lies with MRU's Senior Management;
- b. The Vice Chancellor will be responsible for the management and administration of the Policy. It will be reviewed annually to ensure that it reflects the current accounting practices and is reflective of the financial risks around income collection faced by MRU;
- c. All staff involved in the raising of sales invoices are responsible for ensuring that the information contained is correct to reduce the risk of queries and subsequent late payments. They are also required to provide the relevant information and documentation for any debt collection process; and
- d. All enquiries relating to this Policy should be directed to the finance operations manager in the first instance.

6.0 Principles of the Management of Bad Debts

MRU is keen to maximize its cash collection and in the first instance the debt recovery process will be followed. Where the income remains outstanding and no payment plan has been agreed, the following procedure will be followed:

- Debts greater than ninety (90) days and less than Shs. 400,000/= may be referred to a debt agency or written-off, dependent on circumstances;
- Debts greater than ninety (90) days and less than Shs. 400,000/= days will be referred to MRU's debt collection agency – any income recovered is between 88% and 100% of the original amount. Collection charges are passed on, but not always collected;
- Debts greater than ninety (90) days and over Shs. 1,000,000/= will be pursued by MRU's external debt collection agency and may be referred for litigation;
- Interest may be chargeable on outstanding debt where this is deemed necessary;
- MRU can reinstate debts and attempt to collect them if new information becomes available;
- The accounting entries to be followed by the Finance or Bursar's Office will be:

- a. DR – Bad debt expense account; and
- b. CR - Debtor's Account – (within Sales Ledger Control Account) – ACR Ledger Journal.

7.0 Debt Manager's Role

- Debt managers are designated third party entities that assist debtors with repaying their debt through a debt management plan.
- They provide credit counseling to people with debt problems that have gotten out of hand.
- The steps in the plan include identifying all creditors and how much the debtor owes to each one.

8.0 Calculation of Bad Debt Provision

A bad debt provision will be calculated at the year-end (31st July) to be posted to the financial statements based on the following calculations:

- Any debts over 120 days - 50%
- Any debts over 150 days - 75%
- Any debts over 100 days - 100%

These threshold amounts will be reviewed regularly to ensure that they reflect the natural cycle of debt management processes and are relevant to MRU's business module.

9.0 Management Reporting

In order to enable the Bursar to effectively monitor MRU's debtor levels, monthly aged debt report will be produced. This will identify movement of debtor balances and contain narrative commentary of key risks, issues and updates on debt collection activities.

10.0 Year-End Procedures for Write-Off

- a. During the Financial Year once it's established that debtors are likely to be irrecoverable or uneconomic to pursue further the debt will be recommended for write-off;
- b. A Final Year-End Report will be prepared for the June Resources Committee detailing all debts written-off during the Financial Year and any outstanding items requiring approval for that Financial Year; and
- c. Appendix A: Financial Delegated Authorities – this shows the delegated authority limits for the writing-off of bad debts. Each proposed bad debt will be presented to the relevant body for approval.

Appendix A: Financial Delegated Authorities

- Approval of transactions within approved budgets and business plans
- Writing-off debt

| Title/Role Authority | Limits | Notes |
|-----------------------------|---------------|--|
| Finance Committee | Sh300,000 | Examples include student related debt and partnership invoices |
| University Council | Unlimited | Variations to approved budgets and financial forecast subject to HEFCE fiduciary duties and trustee obligations. |
